DocSTAR™

Sales Sheet

DocSTAR.
Nobody delivers affordable, efficient
document management like we do.

As a shipper, you feel relentless pressure to quickly and accurately document your shipments to avoid questions or disputes that could delay collection of your accounts receivables. You must maintain clear, precise records of transportation activities, including shipment dates, delivery dates and contents.

Yet maintaining all these detailed records — from acceptance forms and invoices to signed PODs, bills of lading and hazardous goods documents — demands significant human resources to manage this costly, incredibly time-consuming process.

Now there's a much more efficient, affordable, intelligent way to manage your shipping documents. DocSTAR.

The electronic filing system people want to use.

DocSTAR is an electronic filing system that dramatically increases the efficiency of your workplace. DocSTAR (which stands for Document Storage and Retrieval) is a total turnkey solution that scans, stores and retrieves your paper documents with ease and simplicity.

This remarkable system saves valuable space, guards against theft or damage, enables your staff to share documents simultaneously, and makes a complete backup copy of all your paper files — with just the push of a button. And it's so easy to learn and use, many people master DocSTAR in just one hour.

What's in it for you.

- **Improved cash flow** — More effective management of POD documents can reduce the amount of accounts receivables over 90 days past due.
- **Reduced labor costs** — DocSTAR offers an efficient process for sorting, filing and retrieving records from your desk in literally seconds, allowing you to minimize your personnel requirements and assisting you in accurately and quickly documenting your shipments.
- **Improved customer service** — Documents can be located in seconds and never get lost, providing nearly instantaneous access to their critical information.
- **Irrefutable document integrity** — DocSTAR's AuthentiDate Image Marking technology virtually eliminates any possibility of altering documents stored in the system without detection, ensuring undisputed authenticity of records.
- **Ease of use** — Even employees with limited computer experience can operate DocSTAR with little training. Repetitive steps can be eliminated with documents for customers receiving multiple shipments.
- **File protection** — DocSTAR's unique two-tiered storage system provides strong protection against loss due to disasters, while critical POD records can still be kept on-site.

Want to save time and money? It's your call.

Shippers all across America are already reducing their costs, and enjoying instantaneous access to vital information with DocSTAR. Maybe it's time you did, too.
